

XBSC / UBSC / BBSC / ULSC - 100+/60+/40/20 GHz

Ultra Broadband Surface Mounted Silicon Capacitors

Rev 1.3

Key features

- Ultra broadband performance up to 110 GHz
- Resonance free allowing ultra low group delay variation
- Ultra low insertion loss thanks to an excellent impedance matching in transmission mode
- Low ESL and low ESR in bypass grounding mode
- High stability of capacitance value over temperature, voltage and aging
- High reliability
- Compatible with lead free reflow soldering

(please refer to our Assembly Application Note for more details)

Key applications

- Optoelectronics/high-speed data
- Trans-Impedance Amplifiers (TIA)
- Receive-and-Transmit Optical Sub-Assembly (ROSA/TOSA)
- Synchronous Optical Networking (SONET)
- High speed digital logic
- Broadband test equipment
- Broadband microwave/millimeter wave
- Replacement of X7R and NP0 capacitors
- Low profile applications (400 or 100 μm)

The XBSC/UBSC/BBSC/ULSC Capacitors target **optical communication systems** (ROSA/TOSA, SONET and all optoelectronics) as well as **high speed data systems** or products. These capacitors are designed for DC blocking, coupling and bypass grounding applications. The unique technology of integrated passive devices in silicon developed by Murata Integrated Passive Solutions offers **low insertion loss, low reflection and high phase stability** from 16 kHz*, up to 110 GHz for the XBSC, up to 67 GHz for the UBSC, up to 40 GHz for the BBSC and up to 20 GHz for the ULSC. These deep trench silicon capacitors have been developed with a semiconductor MOS process. They provide **very high reliability** and capacitance stability over voltage (0.1%/V) and temperature (60 ppm/K).

They have an extended operating temperature range from -55 to 150°C. **Reliable and repeatable performances** are obtained thanks to a fully controlled production line with high temperature curing (above 900°C) generating a highly pure oxide. The XBSC/UBSC/BBSC/ULSC series are compliant with standard JEDEC assembly rules, making the product fully compatible with high speed automated pick-and-place manufacturing operations. These capacitors are RoHS-compliant and are available either with ENIG terminations or lead-free prebumping depending on the case size.

*Cut off frequency at 3dB based on 100nF capacitance value

XBSC 100 GHz+ electrical specifications

Part number	Product description	Case size	Thickness
XBSC.xxx	Surface Mount Xtrem Broadband Si Cap from -55 to 150°C, 100 GHz+ with SAC305 pre-bump		
939118492510-xxS	Xtrem Broadband Si Cap 10 nF 100 GHz+ BV>11	0201M	100 µm
939118722456-xxS	Xtrem Broadband Si Cap 5.6 nF 100 GHz+ BV>30	0201M	100 µm

Parameter	Value
Capacitance range	5.6 nF to 10 nF(*)
Capacitance tolerance	±15 %(*)
Operating temperature range	-55 °C to 150 °C
Storage temperature	-70 °C to 165 °C(**)
Temperature coefficient	+60 ppm/K
Breakdown voltage (BV)	11 VDC or 30 VDC
Capacitance variation versus RVDC	0.1 %/V (from 0 V to RVDC)
Insertion loss (IL) up to 60 GHz+	<1.2 dB(***)
Return Loss (RL) up to 60 GHz+	>20 dB(***)
Equivalent Series Inductance (ESL)	Typ. 100 pH(***) @ SRF
Equivalent Series Resistance (ESR)	Typ. 300 mΩ (***)
Insulation resistance	10 GΩ @ RVDC, @25°C, t>120s, for 10nF
Ageing	Negligible, < 0.001% / 1000 h
Reliability	FIT<0.017 parts / billion hours
Capacitor height	100 µm

(*) Other values on request (**) w/o packing (***) e.g. 10nF/0201M/BV 11V

Assembly by Soldering

The attachment techniques recommended by Murata for the XBSC/UBSC/BBSC/ULSC capacitors on the customers substrates are fully detailed in specific documents available on our website. To assure the correct use and proper functioning of Murata Silicon capacitors **please download the assembly instructions on www.murata.com and read them carefully.**

Please download the **assembly instructions**
on www.murata.com
and **read them carefully before use.**
在使用MURATA电容之前请从
www.murata.com
网站上下载电容安装说明并仔细阅读。

For the assembly instructions, please go to :
<https://www.murata.com/> and follow the sections :
Products > Capacitor > Silicon Capacitor > XBSC / UBSC / BBSC / ULSC Series

Download the pdf file called :
'Assembly Note UBSC / BBSC / ULSC V1.7_Murata'
