

Elevation Can								
Reference ELMCOOverview.vsd								
24-Mar-06								
ECW1 motor power for elevation cable from motor								
	A	Description	B	Comment	Color	Size	Twist	Length
Wires/pins		1 SHIELD			bare			
		2 U			blue	#14		
		3 V			brown	#14		
		4 W			purple	#14		
		5 GND			green	#14		
		6		not used	black			
		7		not used	black			
Ends		A MBTO terminal block						
		B at motor						
ECW2 elevation brakes cable from brake								
		8 BM		brake	blue	#16		
		9 BP		brake	blue	#16		
Ends		A MBTO terminal block						
		B 39-01-3023-P/39-00-0041-C						
ECW3 encoders and hall's for elevation cable from motor								
	A	Description	B	Comment	Color	Size	Twist	Length
Wires/pins		1 SHIELD			bare			
		2 U			brown			
		3 V			gray			
		4 W			white			
		5 GND			black			
		6 Vcc (+5V)			red			
		7 thermal sensor			orange			
		8 GND thermal sensor			orange/white			
		9 N/C						
		10 A			blue			
		11 /A			blue/blk			
		12 B			green			
		13 /B			green/blk			
		14 X			purple			
		15 /X			purple/blk			
Ends		A HTE terminal block						
		B at motor						
ECW4 Signal from elevation level sensor and thermal sensor wire								
	A	Description	B, C	Comment	Color	Size	Twist	
Wires		10 +5V	T1		red	#24		
		11 +5V	O		red			
		12 T	T3		yellow			
		13 Oil indicator	O		green			
		14 GND	T2		black			
		15 GND	O		blue			
Ends		A MBTO terminal block						
		B Temperature						
		C Oil indicator	(note extension wires are needed from product to reach the block)
